A MESSAGE FROM OUR EXECUTIVE DIRECTOR

It’s that time of year again—time to think about spring cleaning and decluttering your home and life. And with the latest trends and new shows about simplifying your space, it’s the perfect time to visit the library. No need to declutter when the library has everything you need from books, DVDs, audio books, special collections and more.

When you think about spring cleaning, Earth Day, recycling, and going green also come to mind. CCPL recognizes the importance of taking care of our environment. All of our program guides are printed using paper made from ten percent post recycled materials. We are also dedicated to offering resources on ways to help our environment. We have several programs this cycle that explore green themes—everything from recycling and reusing materials in new and innovative ways, to how to be a better friend to the environment—in order to continue our commitment to bring our community new information and opportunities to engage, discover and learn. You will see a green pages icon next to those programs that celebrate Earth Day, recycling and other green initiatives.

So whether it’s to escape spring cleaning or to learn how to be more eco-friendly, stop by one of our branches this spring, endless possibilities await.

Janet Salazar
Executive Director
